Before operating the set, please read this manual carefully.

WARNING:

To reduce the risk of electric shock does not remove cover (or back). No user serviceable parts inside. Refer servicing to qualified service personnel. To prevent fire or shock hazard, do not expose the rear of the set to rain or moisture. Do not rub or strike the Active Matrix LCD with anything hard as this may scratch, mark, or damage the Active Matrix LCD permanently.

Unauthorized tampering with the inside of the monitor invalidates the warranty.

The manufacturer shall not warrant for any damage caused by improper maintenance and/or repair. Work by third parties.

Important safeguards for you and your new product:

Your product has been manufactured and tested with your safety in mind. However, improper use can result in potential electrical shock or fire hazards. To avoid defeating the safeguards that have been built into your new product, please read and observe the following safety points when installing and using your new product and save them for future reference.

Read Instructions

Follow Instructions

All operating and use instructions should be followed.

Retain Instructions

The safety and operating instructions should be retained for future reference.

Heed Warnings

All warnings on the product and in the operating instructions should be adhered to.

Cleaning

Disconnect the unit from the electricity supply before cleaning. Do not use abrasive cleaners. Use a damp cloth for cleaning.

Water and Moisture

Do not use this apparatus near water.

Transporting Product

A product and cart combination should be moved with care. Quick stops, excessive force and uneven surfaces may cause the product and cart combination to overturn.

Attachments

Do not use attachments not recommended by **Boland** as they may cause hazards.

Ventilation

Do not block any of the ventilation openings.
Install in accordance with the manufacturer's instructions.

Power Sources

This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your supplying dealer.

Power Lead Polarization

This product is equipped with a three-wire grounding-type cord. This is a safety feature. Do not defeat the safety purpose of the grounding-type cord.

Power Cord Protection

Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles and the point where they exit from the product.

Outdoor Cable Grounding

If an outside antenna or cable system is connected to the product, be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and built-up static charges. A “face plate” also needs to be installed with an isolating capacitor to prevent any damage from static.

Lightning

For added protection for this product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent possible damage to the product due to lightning and power-line surges.

Power Lines

An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to avoid contact with such power lines or circuits, as contact with them might be fatal.

Earthing the product

This product must be earthed properly to comply with the safety regulations in the country of use. If you are unsure of these regulations, please consult a qualified electrician.

Servicing

Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltages or other hazards. Refer all servicing to qualified service personnel. If the Set does not operate properly, switch it off and call your dealer.

Damage Requiring Service

Isolate this product from the mains supply and refer servicing to qualified service personnel under the following conditions:

If the power-supply cord or plug is damaged.

If the glass front has been damaged.

If there is ingress of water between the glass and the LCD screen.

If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.

If the product has been dropped or the cabinet has been damaged.

If the product exhibits a distinct change in performance.

Safety Check

Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition and the front seal is intact.

Mounting

The product should be mounted on a wall only as recommended in the instructions.

Power

This set operates on an AC supply; the voltage is as indicated on the label on the Manual. This appliance must be earthed at all times through the chassis as well as through the power lead.

Features

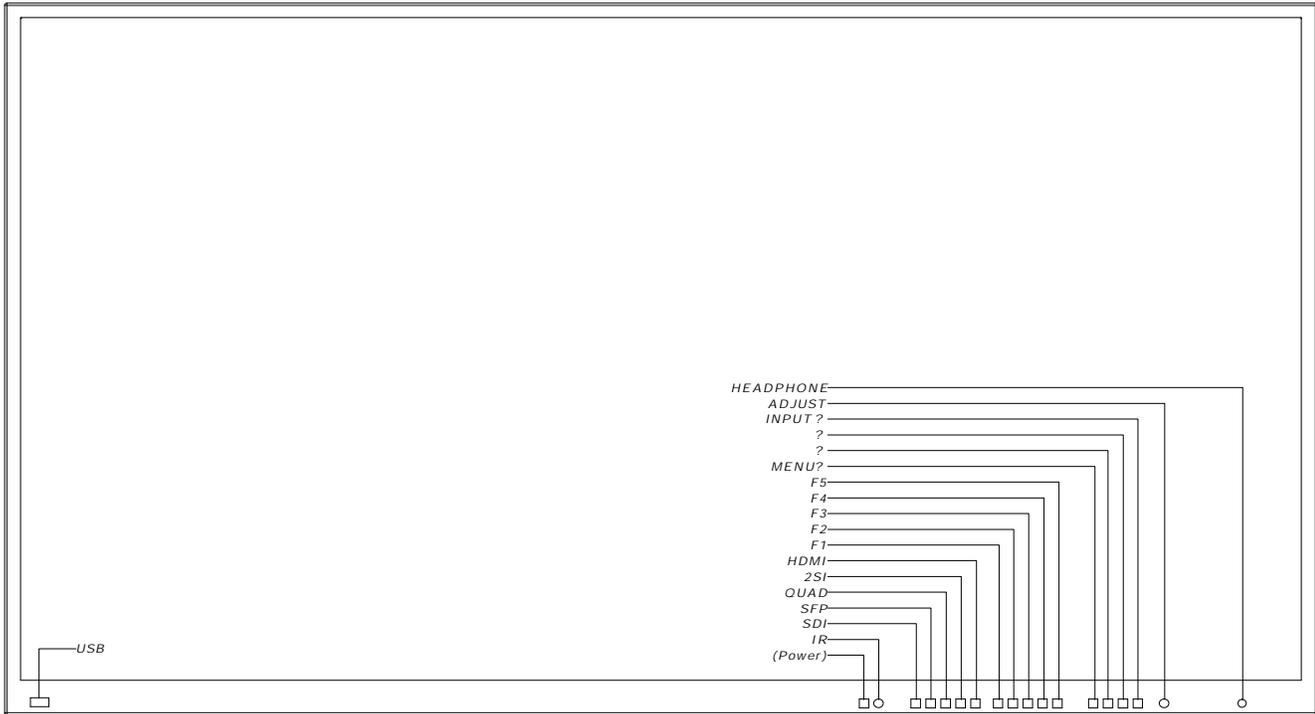

This product is a multi-format Digital LCD Monitor to display all kinds of digital video input signals, as 12G/HD/SD-SDI//HDMI/SFP Digital.

A Professional High Definition Broadcast Monitor with a menu of convenient user interfaces and easy controls for displaying and analyzing all the details from an HD-SDI or HDMI input source.

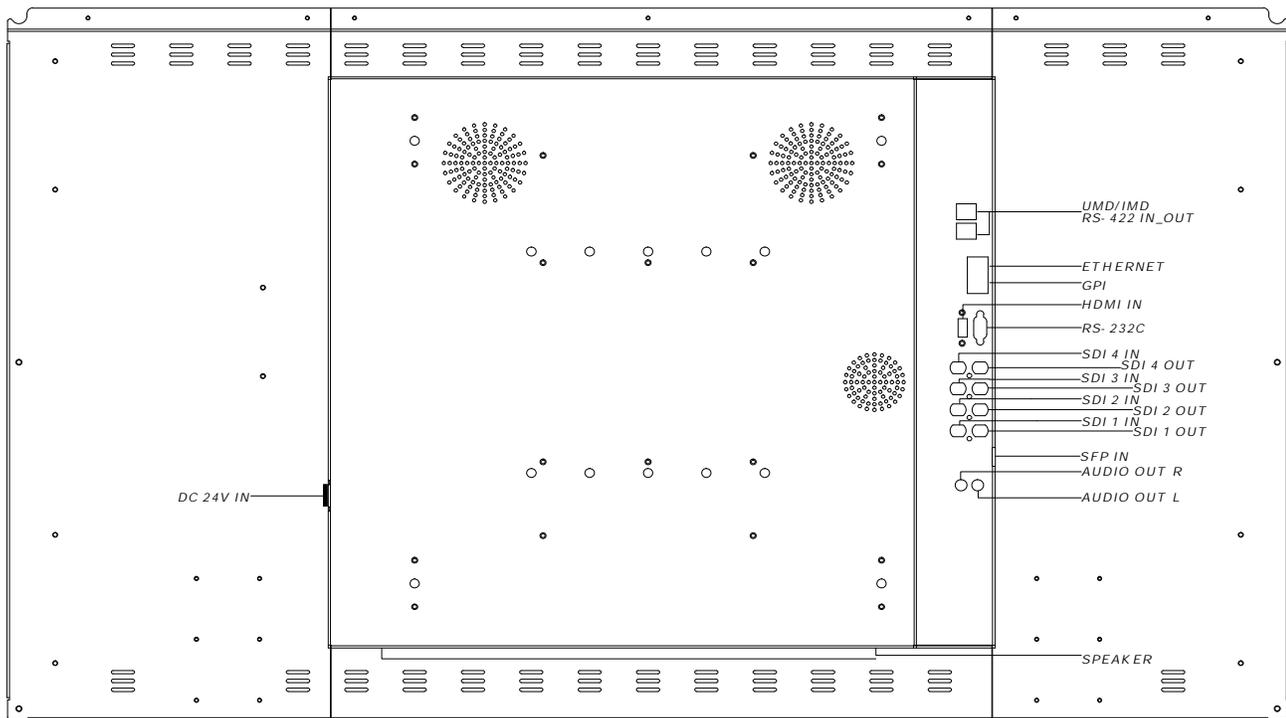

- 4K includes 2x-4x inputs / 2x-4x outputs (Dual link Not Supported)
- Quad Link Display (Square Division, 2 Sample interleave)
- HDMI input accepts up to 2160p
- HDMI 2.0 support (supports HDCP 2.2)
- SFP Module inputs
- High Dynamic Range (HDR) display functions, PQ(2084), Hybrid Log Gamma, and Camera S-Log3
- Waveform & Vector Scope (YPbPr,RGB, Waveform & Vector)
- 16 Ch Audio Level Meter Display (SDI only)
- Supported 3D LUTs
- Custom 3D LUT File Import Through USB (17 .cube format)
- Color Temperature – User, VAR, 9300K, 6500K, 5400K, 3200K
- USB Firmware Upgrade
- Monitor Control via Ethernet / RS422 / RS232 / IR / GPI
- Supports 4096 x 2160 Aspect.
- Aspect Ratios (Full Screen, 16:9, 4:3,14:9,1.85:1,2.85:1,Pixel to Pixel)
- Zero Scan / Pixel to Pixel mappings
- Closed Caption 608, 708
- Focus Assist / Peaking filter / False Color
- Time code
- Markers
- H / V Flip
- H / V Delay
- UMD
- Blue/Mono Only
- Supports External GPI Control (RJ-45).
- Auto Calibration via CA-210, CA-310 (Minolta), K-10 (Klein) and many others on Windows

MENU Basic Operation

In this menu system, there are several ways to customize the menu settings provided.

Most menus consist of three levels to set up the options, but some require greater depth for the variety of settings. If you press the **MENU** button, only the first and second level of the menu system will appear on the monitor screen. The third level can be displayed by pressing **INPUT?**. If a menu has more than three levels, the pop-up dialogue box will be displayed as the fourth or fifth level.

To show and remove the Menu

Press the **MENU** button to display the menu. A second press of the **MENU** button will take you back to monitor viewing.

To go to the next level

Press **INPUT?** button.

To go back to the previous level

Press **?** (Left) button

Typical Menu Operation

1. Press **MENU** button: The main menu will appear.
2. Use **UP/DOWN** button to select the desired menu option (icon).
3. While the desired menu option is selected, press **INPUT** to move to the second level.
4. Use **UP/DOWN** button to select the second menu option.
5. Press **INPUT** to move to the third level: Some menu options require additional steps.
6. Press **MENU** to return to the previous menu to return to monitor viewing.

Turning On the Monitor

1. First, connect power cord correctly. At this moment, the monitor switches to standby or power on mode. In standby mode, in order to turn monitor on, press the **Power** button.
2. Select the viewing source by using **INPUT** button on Keypad in front of monitor

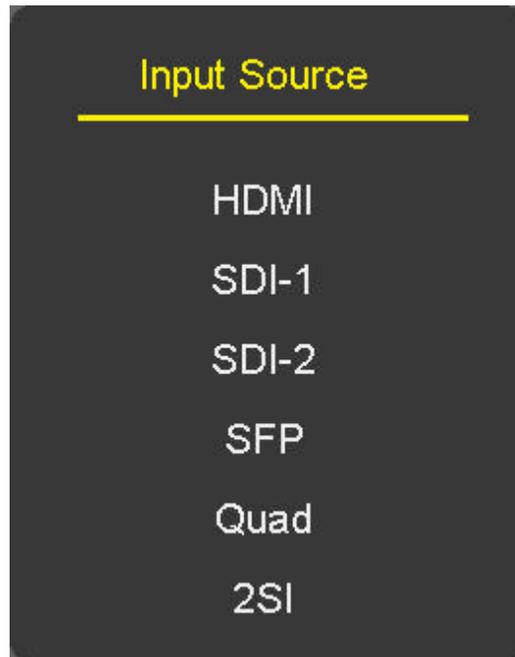

Volume Adjustment

1. Press the **ADJUST** button on Keypad.
2. If you want to switch the sound off, press the **FUNCTION (Audio mute)** button.
3. You can cancel this function by pressing the **FUNCTION (Audio mute)** or volume control button.

MENU Basic Operation

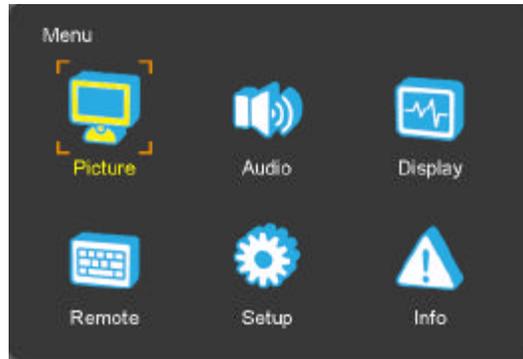

How to Select Video Source by OSD

1. Press the **INPUT** button and then **UP/DOWN** button to select each video source.
2. Press the **INPUT** button to go to desired video source.
3. If Input Name is enabled, The **INPUT** button goes into input name edit mode instead of selecting source.

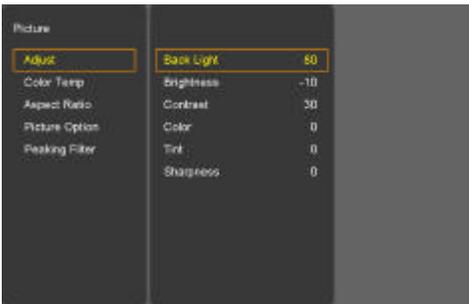

And on most models, SDI 3 and SDI 4

PICTURE MENU

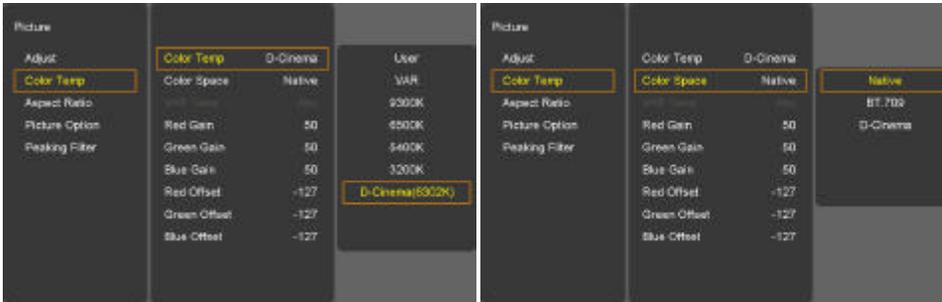

Adjust

- Back Light Dimming or OLED Screen Brightness Level select (0~100)
- Adjust the values of Brightness (black level), Contrast (white level), Color, Tint and Sharpness, directly from -50 to 50. A Value of Zero is nominally the Calibrated detent point.

Color Temperature Control

- For Setting the Color temperature or adjusting RGB Gain/Offset value directly
- User (User setting RGB gain value), VAR (3200K ~ 9300K), Often used value(9300K, 6500K, 5400K,3200K) and 3D LUT Calibration value (D-Cinema = 6302K) (CAUTION- VARIABLE USER MODE MAY UNCALIBRATE HDR MODES VALUES).
- Color Space: Native/BT.709/D-Cinema

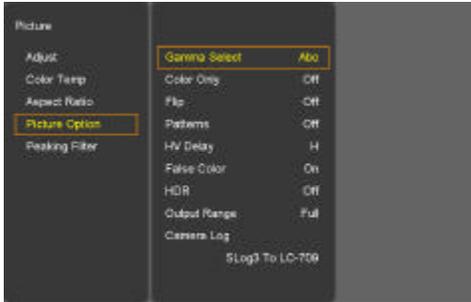

Aspect Ratio

- Pixel to Pixel – Display size is an input size. If input resolution is bigger than panel size, fit the panel size
- For setting the aspect ratio.
- Full Screen: The images are displayed with a panel size.
- Full Screen, 16:9, 4:3, 14:9, 13:9, 1.85:1, 2.35:1: The images are displayed with each aspect ratio.
- Function-key operate Rotation, Full Screen, 16:9, 4:3, 14:9, 13:9, 1.85:1 & 2.35:1

PICTURE MENU

Picture Option

☞☞ **Gamma Select**

-Enable: Waveform, Vector Display on/off.(only SDI)

-Waveform Sel: Waveform Mode select. (Y, VT, Y+VT, YCbCr, GBR)

-Line All: Waveform & Vector Scope display.

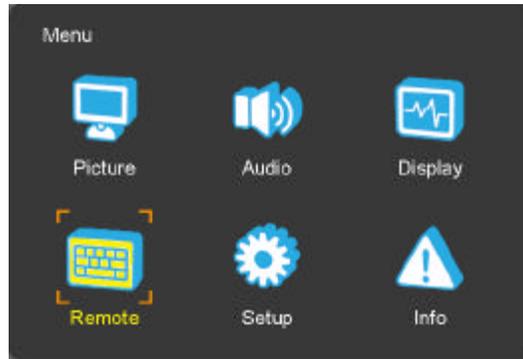

-Line Select: Used to select specific Vertical Line for Waveform/Vector scope.

-Line Number select: In WAVEFORM/VECTOR, use the Up/Down button or Adjust Turn Right/ Left to select User's desired line.

-Line Display: off/on/5 sec

-Intensity: 1~63 Green Trace Brightness

REMOTE MENU

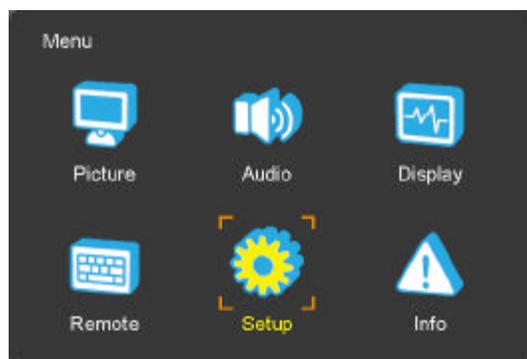

GPI Control

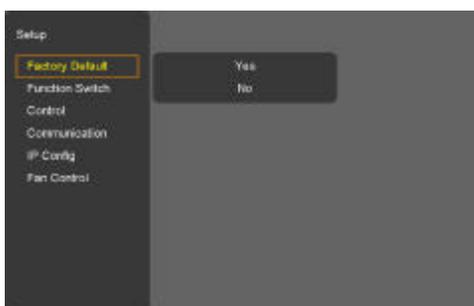

- For allocating functions to particular GPI pins.
- When remote control operations are to be performed using an external GPI Controller or contact switch.
- GPI Control: GPI function Enable/Disable
- GPI 1 ~ 7

GPI Function	Description
Undefined	Not set (no function allocated)
Tally R, Tally G	For lighting up the Red or Green tally lamp.
Marker On/Off	Displays the marker.
Function 1~5	Activates FUNCTION 1~6 buttons
Aspect	Sets the aspect ratio of the images
Aspect Marker	Marker size Select.
Area Marker	Area Marker size Select.
Center Marker	Displays the center marker.
Input SDI1, Input SDI 2, Input Quad, Input 2SI, Input HDMI	Switches the input source.
Menu Key, Enter Key, Up Key, Down Key Left Key, Right Key	Use the key function by GPI.
H/V Delay	H/V Delay On/Off
GPI 7 : Power Key(Fixed)	

SETUP MENU

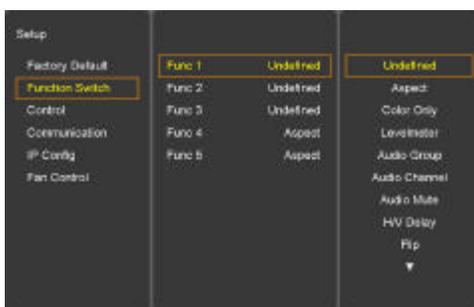

Factory Default

- Factory Default: User Reset.

Function Switch

- Function 1~5: Select the function to be allocated to the FUNCTION (F1~F5) front panel buttons.

Function1&2 button	Description
Undefined	Not set (no function allocated)
Aspect	Sets the aspect ratio of the images
Color Only	Execute Mono color or Blue Only
Level Meter	Level Meter on/off
Audio Group	Select the extract the embedded audio group in SDI input.
Audio Channel	Select the extract the embedded audio channel in SDI input.
Audio Mute	Toggles sound status of speaker/headphone in mute.
H/V Delay	H Delay -> V Delay -> HV Delay -> off
Flip	H -> V -> H+V -> off
Marker	Marker on/off
Aspect / Area Marker	Aspect/ Area Marker Select
Waveform	Waveform on/off

SETUP MENU

Control

Front LED

- Front LED on/off/off after 15s

Local Enable

- Power, up and down key is only worked, if Local enable is off.

IR Enable

- Select the controller of local or remote. If remote controller is selected, both local (front key) and remote are worked. However select local, local key only operated.

Auto Key Lock

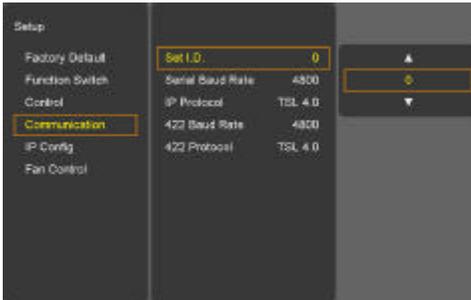

- If it does not work 10 minutes to lock automatically. Key button is operated after being pressed about 2 seconds

Source Key (Front "Input" Button/ Remote Controller "Source" Button)

- Menu: Select the input signals to the input menu OSD.

- Rotate: Press Button to rotate the input source.

Communication

Set ID (01~99)

- If control each Board, must set ID numbers of each Board

Serial Rate _ 422 Baud Rate

- 2400/4800/9600/19200/38400/57600/115200

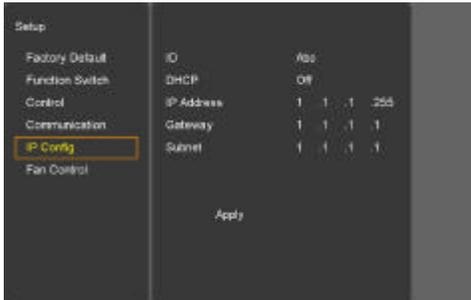

IP Protocol

- Remcon / TSL 4.0, /TSL 5.0

422 Protocol

- Remcon / TSL 4.0 / RDU

IP Config

ID

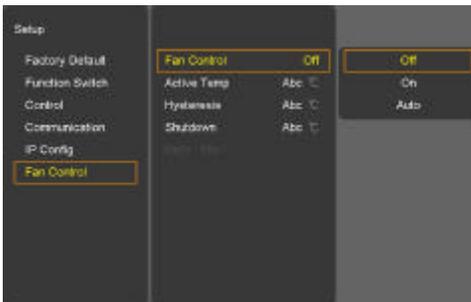

- Network ID Character Select

DHCP

- DHCP on/off (Manual IP settings – DHCP on)

* "Apply" enter all settings after.

Fan Control

Fan Control

- Internal Fan Controls driving option by temperature sensor **Auto** / force on / force off

Active Temp

- Adjusts fan driving temperature by Celsius degree. It works only when the Fan Control setting is Auto.

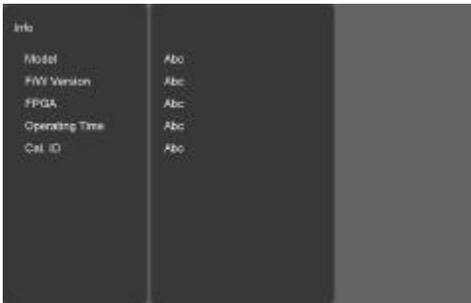

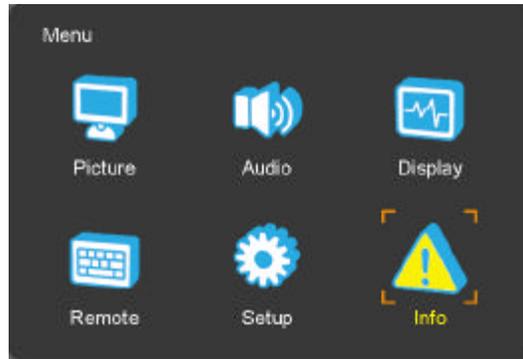

Hysteresis

- Adjusts fan driving hysteresis temperature by Celsius degree. (1~10°C)

Shutdown

- Automatic Monitor thermal shutdown self-protection is invoked at 85°C or above by turning itself OFF.

INFO MENU

- Status Box Display of Model, F/W Version, FPGA, Operating Time, Serial Number, etc.
