Service Manual

945 Camelia St., Berkeley, California 94710 510-527-6666

CLEAR-COM LIMITED WARRANTY

The Clear-Com warranty does not cover any defect, malfunction or failure caused beyond the control of Clear-Com, including unreasonable or negligent operation, abuse, accident, failure to follow instructions in the manual, defective or improper associated equipment, attempts at modification and repair not authorized by Clear-Com, and shipping damage. Products with their serial numbers removed or defaced are not covered by this warranty.

This warranty is the sole and exclusive express warranty given with respect to Clear-Com products. It is the responsibility of the user to determine before purchase that this product is suitable for the user's intended purpose.

Any and all implied warranties, including the implied warranty of merchantability are limited to the duration of this express limited warranty. Neither Clear-Com nor the dealer who sells Clear-Com products is liable for incidental or consequential damages of any kind.

For your own records fill in the information below:

Factory Service

* Model No. _____ * Serial No. _____

Date Purchased _____

Purchased from (dealer) _____

Address _____

City _____ State _____ Zip _____

All equipment returned for repair must be accompanied by documentation stating your return address, telephone number and date of purchase, along with a description of the problem.

Note: Do not return any equipment to the factory without first obtaining a Return Authorization Number.

Send equipment to be repaired to:

Customer Service Department
Clear-Com Intercom Systems
945 Camelia Street
Berkeley, California 94710-1484
Telephone: (510) 527-6666
Telefax: (510) 527-6699

Warranty Repairs - If in warranty, no charge will be made for the repairs. Equipment being returned for warranty repair must be sent prepaid and will be returned prepaid.

Non-Warranty Repair - Equipment that is not under warranty must be sent prepaid to Clear-Com. If requested, an estimate of repair costs will be issued prior to service. Once your approval for repair, and repair of equipment is completed, the equipment will be shipped freight collect from the factory to the customer.

NOTICE ABOUT SPECIFICATIONS

Performance specifications included in this manual are design-center specifications and are included for customer guidance and to facilitate system installation. Actual operating performance may vary.

ABOUT THIS MANUAL . . .

To get the most out of the SB-440 Station, read this manual carefully. It will answer questions you might have about installation and operation. For service information you will need to order the MS/RM/SB-440 Service Manual from Clear-Com's Customer Service Department. The part number for the service manual is 810207.

P/N 810207 Rev. B

While Clear-Com makes every attempt to maintain the accuracy of the information contained in its product manuals, that information is subject to change without notice.

ABOUT THIS MANUAL

This manual contains schematics, block diagrams, PCB assembly drawings, and bills of materials for PCBs. It will answer questions you might have about servicing the MS-440, RM-440, and SB-440 intercom stations.

This manual is divided into three sections:

- Overall Schematics and Block Diagrams of the Three Products.
- Schematics
- Bills of Materials for Individual Sections of the Units.

Overall Schematics and Block Diagrams of the Three Products.

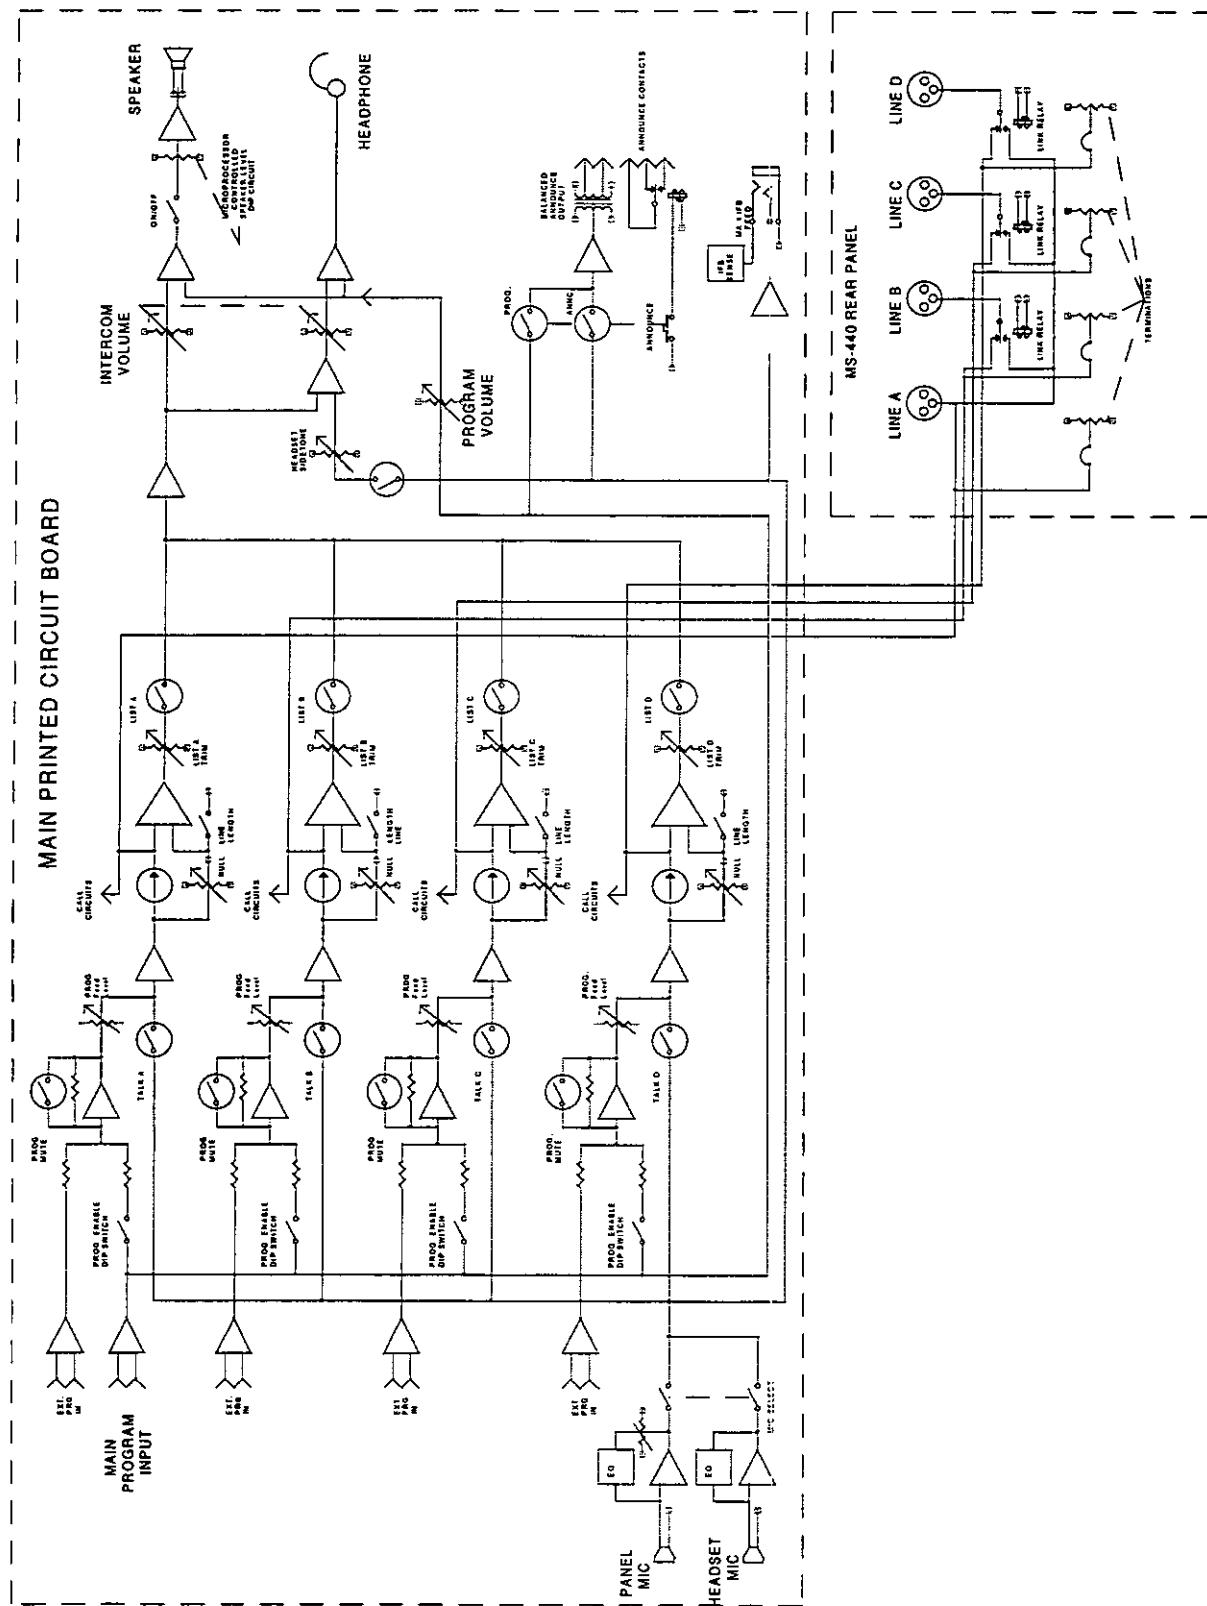

The MS-440, RM-440, and SB-440 are built from a single common design and vary in the various features available. All three intercom stations use the same Main PCB assembly. The differences in the units is the front and rear panels and whether or not a power supply is installed. The following is a brief description of the differences of the three products.

MS-440: The MS-440 is a Main Station that has a 2 amp. power supply and Linking ability between the four channels.

RM-440: The RM-440 is a Remote Station that does not provide power for a intercom system and does not have Linking ability between the four channels.

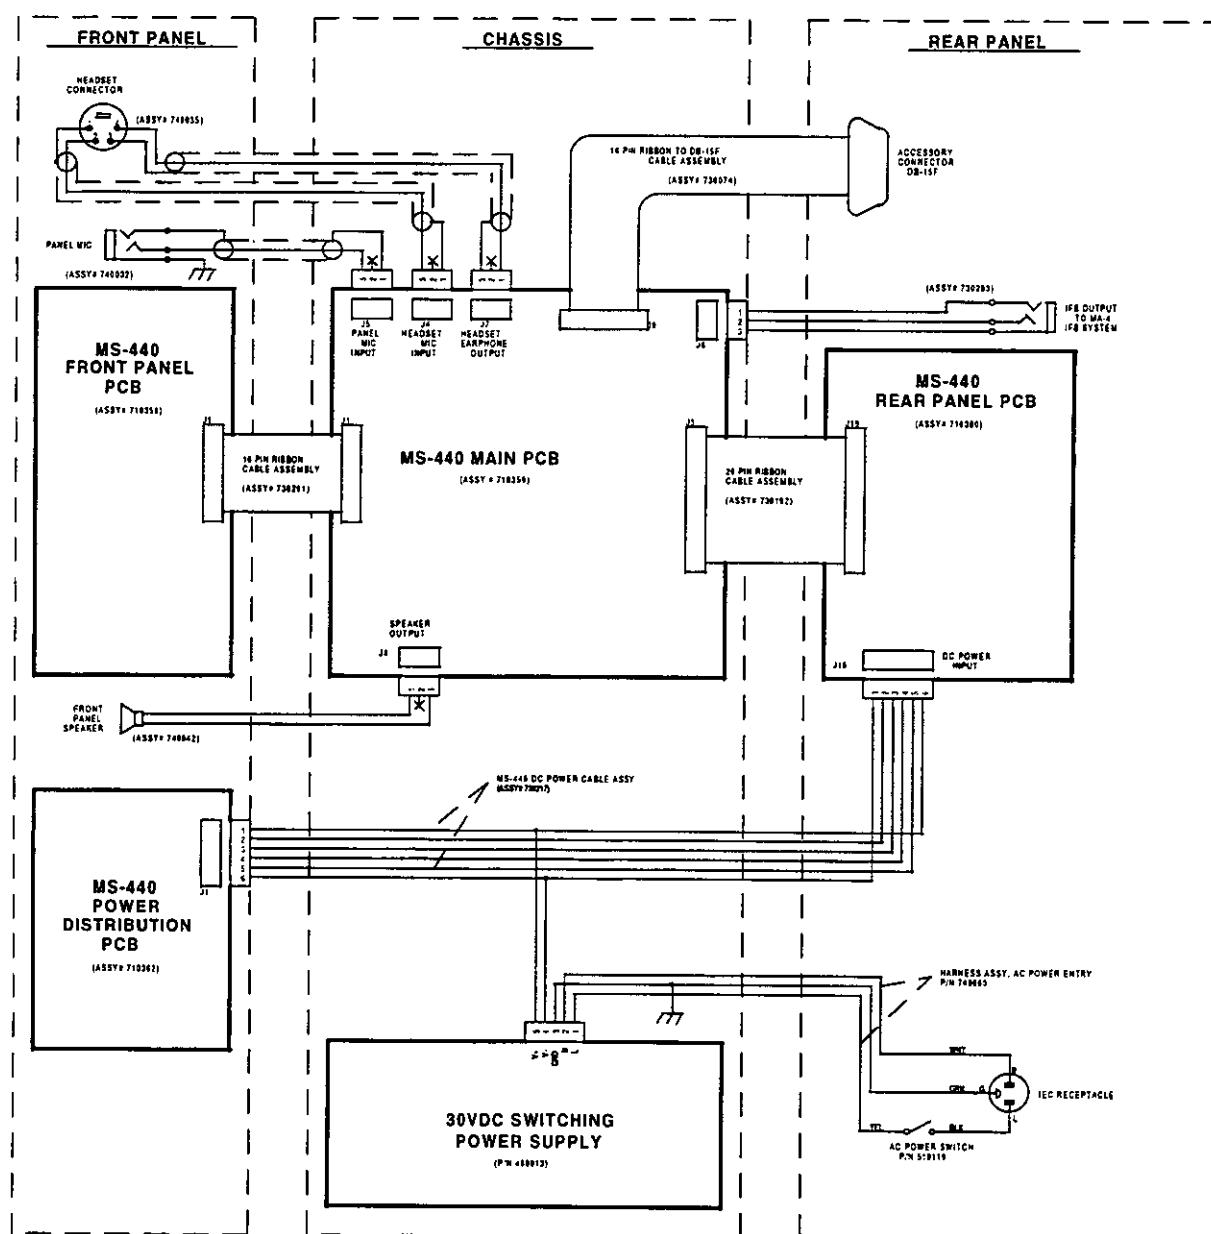

SB-440: The SB-440 is a Main Station that has a 2 amp. power supply, Linking ability between the four channels, and a ten input slide switch assignment matrix.

The following pages show an audio block diagram and an overall chassis schematic of each of the products. Use these overall schematics and block diagrams to understand the interconnection of the individual PCBs used in each product.

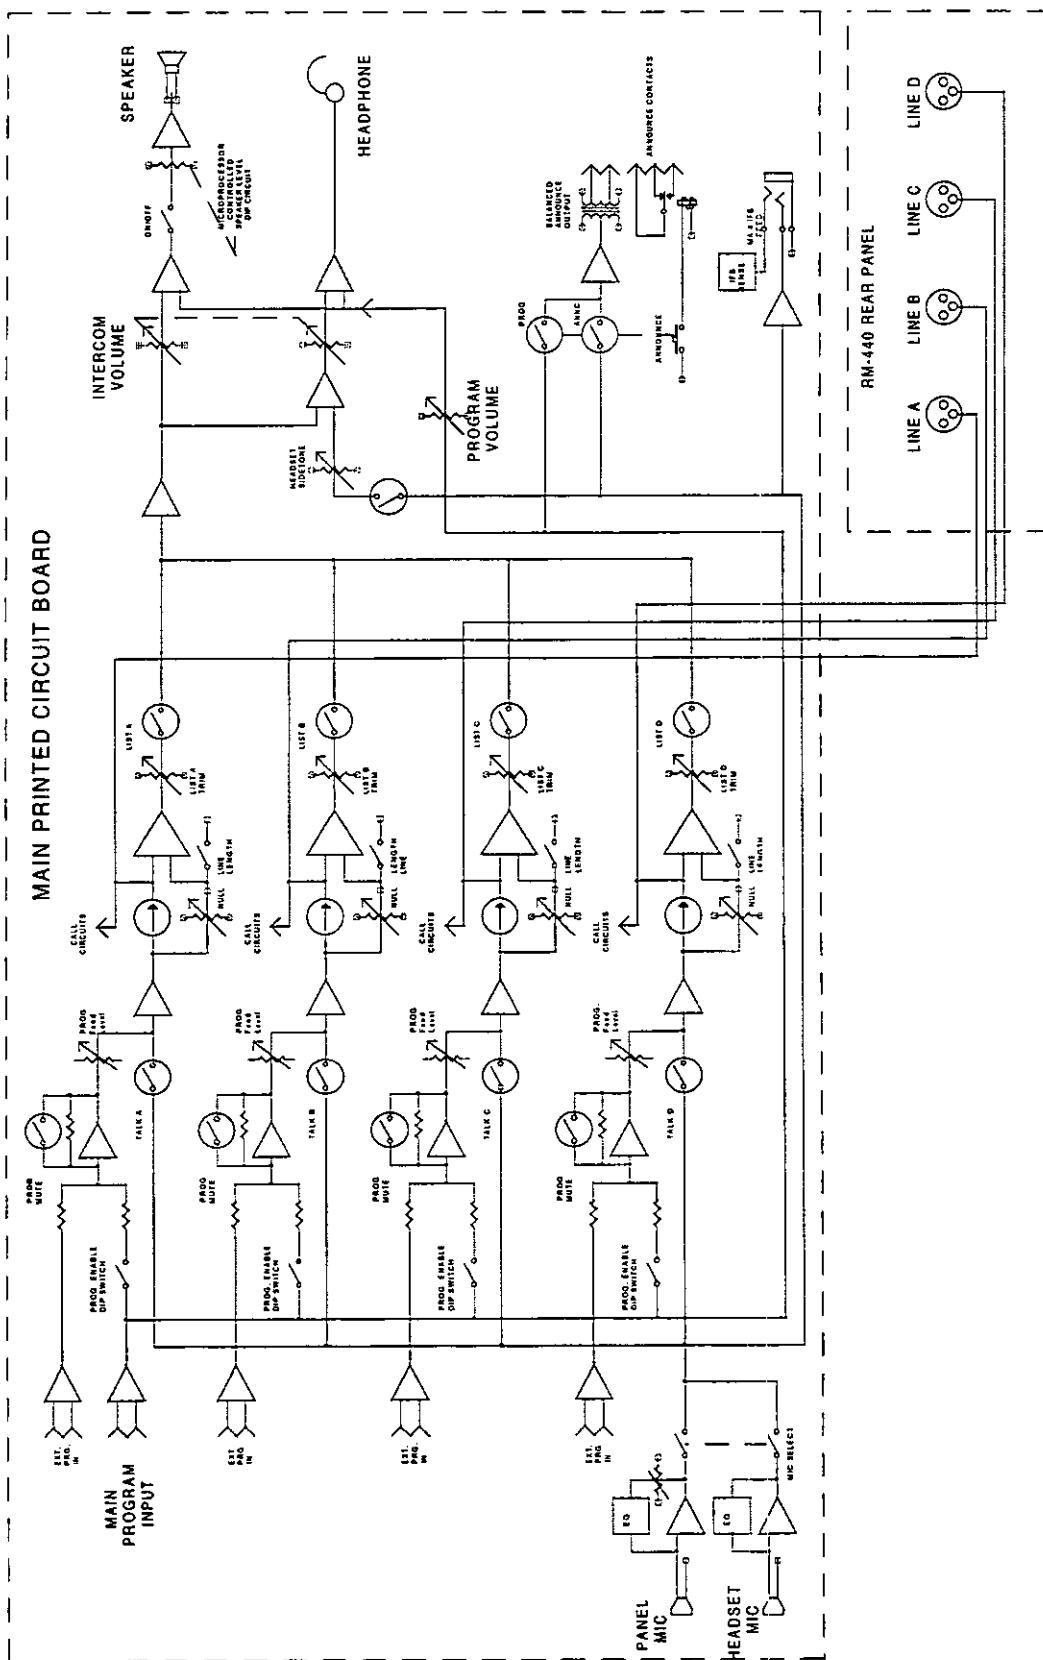

Audio Block Diagram for the MS-440

Bills of Materials for Individual Sections of the Units

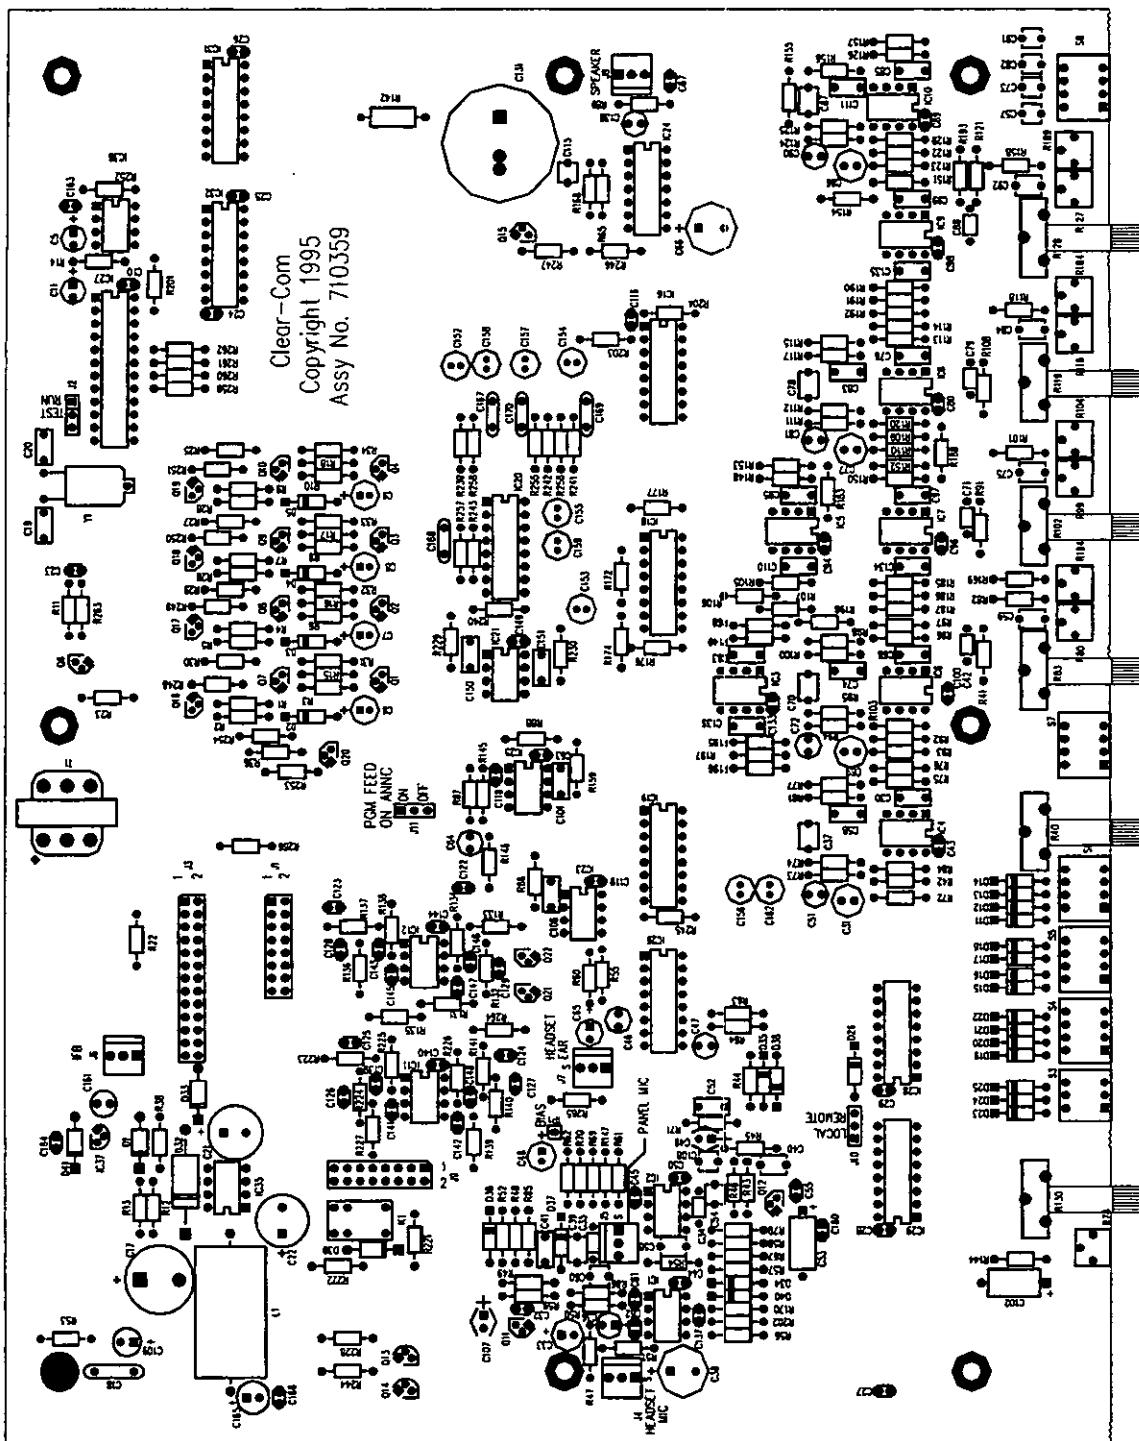

This section provides assembly drawings of printed circuit boards and bills of materials for those assemblies.

This section is divided into the following sections:

- Miscellaneous Chassis Parts for the MS-440/RM-440/SB-440
- Assembly Drawing and Bill of Materials for the Main PCB
- Assembly Drawing and Bill of Materials for the MS-440/RM-440/SB-440 Front Panel PCB
- Assembly Drawing and Bill of Materials for the MS-440 Rear Panel PCB
- Assembly Drawing and Bill of Materials for the RM-440 Rear Panel PCB
- Assembly Drawing and Bill of Materials for the SB-440 Rear Panel PCB
- Assembly Drawing and Bill of Materials for the Power Supply PCB
- Assembly Drawing and Bill of Materials for the Power Distribution PCB
- Assembly Drawing and Bill of Materials for the SB-440 Assignment Switch PCB
