

## ***Appendix P***

### ***CE 3000 Matrix Control / PL 3000 Party Line Interface SC 3000 Serial Control / VG 3000 Video Display / Status Generator***

These controller boards, which were part of the original BCS 3000 Control System, have been replaced by the VM/SI 3000 Control Processors and the CM 4000 Control Module. As of Jupiter software release 7.1.0 they are no longer supported and should not be used in systems with current software.
