# NV8576 Rack Mounting

**1**
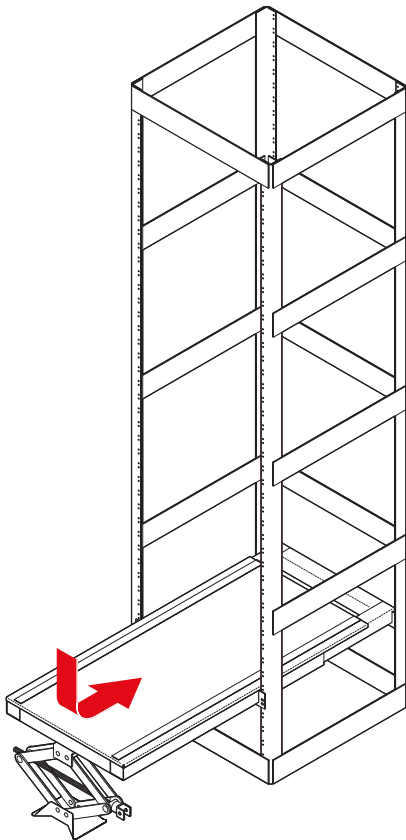

Use 2 screws at each position.

1. Attach shelf supports to frame.

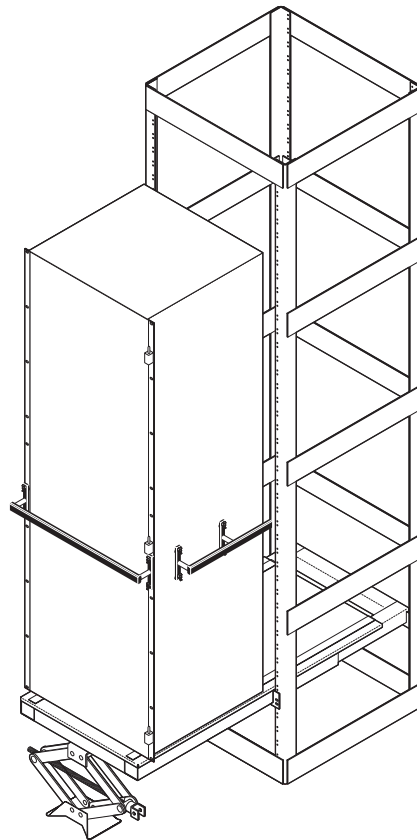

**2**

2. Place jack under shelf support. Adjust jack height.

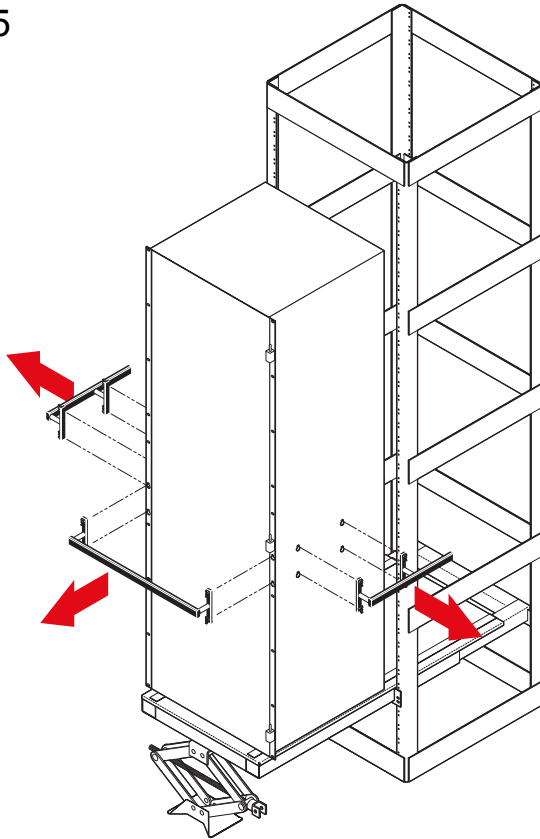

**3**

3. Lay shelf on shelf supports.

**4**

4. Load router on shelf using handles as needed.

**5**

5. Remove handles.

**6**

6. Attach door. Slide router into position. Attach to rack with screws.

**7**

7. Remove jack and shelf parts.
