# Interoffice Memorandum

GLT-99-037

**To:** File

**From:** G. Tarlton

**Date:** October 21, 1999

**Re:** 81-9062-0410-0 - Truck Link Protocol - ECO-3247

---

Truck Link utilizes a DC signal handshake to create a control system where two independent truck systems can be linked together to work as one integrated system. There are at present, no commands or messages passed in a truck link system. For further information, see 81-9059-0453-0, the Truck Link manual.

This memo shall serve as 81-9062-0410-0 Revision A.
