

**Title:** Audio Input Cable Connector Installation

**Products:** Lynx, RM4000, RM5000 Audio Routing Switchers

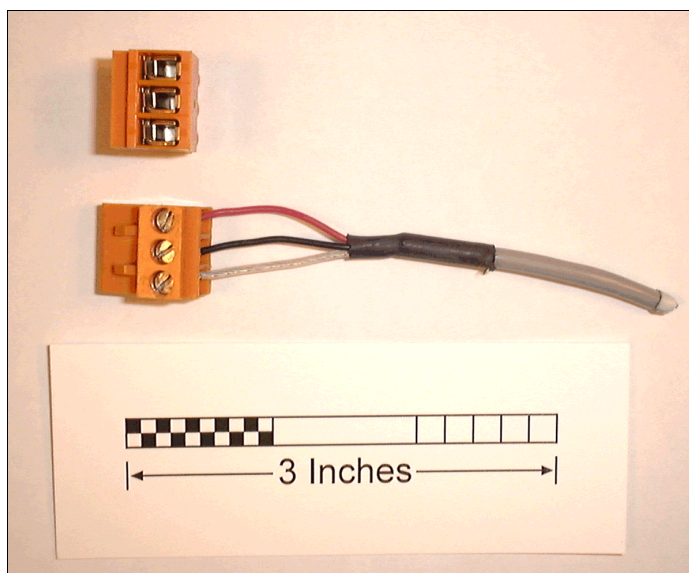

**Date:** March 29, 1999

**Issue:**

Additional information is needed to install the audio input cable connectors for the products listed above.

**Solution:**

Audio input cables are terminated with a 3-contact plug (PESA Part. No. 81-9029-0607-2) as shown in Figure 1. The connector contacts are not marked so the connector should be wired in accordance with Table 1.
