

Laser Safety

Warning!

Class 1 Laser. Do not stare into a connector port or fiber.

Laser Radiation

The unit is a CDRH Class 1 laser device. Although this means it is eye safe, you must avoid looking directly at, or staring into, the laser beam located on an ST connector or on the end of a fiber.

Infrared radiation is produced at the fiber connection port on the rear of the unit and at the end of unterminated optical fibers that are attached to this port. Avoid long, direct exposure to the light that comes from these sources.

Do not power up the unit when there is no fiber attached to the fiber connection port.

There are no user adjustments inside the Diamondback. Do not attempt any type of service to this instrument other than so instructed in this manual. Refer servicing to Telecast Fiber Systems, Inc.

FCC Part A Manual Notice

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency (RF) energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Warning CE

This is a Class A product. In a domestic environment this product may cause radio interference.
