Installing the X-Lite

After running the setup program (as mentioned on Page 1) apply power to the X-lite with the included power supply XLR connection. Plug the USB cable into the computer and into the X-lite box.

The computer will detect the X-lite and start the add new hardware routine, choose manual install and browse too C:\Program Files\Pciwplus32XL\USB XBOX Drivers Windows XP will say these drivers are not approved by Microsoft, press continue.

Note: if 'automatic install' is selected with Windows XP, XP will install drivers for a USB hub, which will prevent Winplus from contacting the card.

If you do find yourself with this situation, you will need to go to 'device manager' and find a USB device with a yellow exclamation mark, double click on this and choose 're-install driver' and then browse to **C:\Program Files\Pciwplus32XL\USB XBOX Drivers** install should complete and Windows will

Tell you that your device is installed and ready to use.

USB Hand control install

If you have purchased a hand control with X-lite plug it in to a free USB port. Windows will detect it and pop up this window . **Fig 1**

Select 'not at this time' then click next
