Overall Message

LDK 4640 OCP 400 Operational Control Panel

After updating the software, the new version of the LDK4640 OCP400 Application software becomes version 42 with file name:
392240738101_165_001_S42

New Functionality:

- Extra license status page added for 4 extra licenses visible for LDX 100.
- Support for the 2 HDR Gamma breakpoints for LDX100
- Support for Remote Back Focus control.
  (Only available when lens is supporting this functionality as well.
  For now only with LDX 100/150. Other camera systemparts will follow soon)
- Increase max clients for camserver to 3 (for **OCP400/30** only !!!)
