# Kayak HD Release Notes

## Introduction

This document includes notes for software installation, licenses, new features changes and enhancements, and other information specific to the release of Kayenne XL control panel, Kayenne XL menu panel and the Kayak HD video frame that have changed since Kayak/Kayenne XL software release V694.

#### **New Features**

- Support of Kayenne XL control panel on a Kayak HD mainframe
- Support of Kayenne XL menu panel on a Kayak HD mainframe
- Keyer 5&6 option available on full M/Es

### Compatibility

The Software is compatible for connected device types

- Kayenne XL control panel
- Kayenne XL menu panel
- Kayak control panel
- Kayak HD mainframes

if the software has been installed from the same Release CD.

To run the Kayenne XL control panel on a Kayak HD mainframe, the Software License '**Kayenne XL Frame**' must be installed at the Kayak HD mainframe.

With V700 the Kayenne XL menu panel DS1220.xxx (1280x768Pix) replaces the former KayakHD Sidepanel version DS0203.xxx (640X480 Pix).

The software version V700 does not support the following hardware

- Kayak DD-1 and Kayak DD-2 Production Switcher
- Kayak HDX Control Panels (former DD35/XtenDD Control Panels)

### Available Documentation on V700 Release CD

The V700 Release CD contains the following documentation:

- ReleaseNote.pdf (this document)
- Release Note Addendum
- Kayenne\_XL\_ISM\_V700.pdf (Installation and Service Manual)
- Kayenne\_XL\_User\_Manual\_V700.pdf (User Manual)

V694 Documentation for Kayak HD

- Release\_Note\_V694.pdf, Kayak\_User\_Manual\_V693.pdf (User Manual)
- KayakHDV694IPM845103.pdf, KayakHDV694ISM844806.pdf (Installation and Service Manual)

### **Software Installation**

### Installing the Sidepanel Software

- Insert the Kayak HD Software CD into your computer's CD-ROM drive. Or download the software from www.thomsongrassvalley.com.Copy the software to a USB device (flash memory or hard disk).
- Connect the USB device at the right side of the Menu Panel.
- Kayak HD Software uses an autorun application to help installing the software. Navigate to the following directory:

\ds0206\Autorun\Autorun.exe

• Select 'Installation of graphical user interface' at the Kayak HD / Kayak Installation wizard:

Figure 1. Side Panel Installation (Example)

• Click on **Install Kayenne XL Sidepanel** to launch the installation.

Figure 2. Keyenne Side Panel Installation

|                    | Kayenne XL / Kayak Installation   |              |

|                    |   | 39           |
| AutorunVer. 684.01 |   | Grass valley |

• The Sidepanel Software Installation Welcome screen displays. Click **Next**.

Figure 3. Confirm

- Choose the type of installation you wish to perform:
  - **Demo:** Demo version, no connection to a panel or a frame.
  - **GUI PC:** Connection only to a frame, not to a panel.
  - MultiPanel: Connection to frame and panel.
  - **SinglePanel:** Connection to a specified panel during installation.

Figure 4. Installation type

| Setup Type |   | ×    |
|------------|---|------|
|            | Click the type of Setup you prefer, then click Next |      |
|            | Demo<br>GUI PC<br>MultiPanel<br>SinglePanel         |      |
| <b>20</b>  | Can attach to every control panel.                  |      |
|            | < <u>B</u> ack <u>N</u> ext > Cance                 | el 🛛 |

• Select the network which is used for the switcher network and click **Next**:

Figure 5. Select component

• Click to select or deselect the checkbox for **Desktop Picture**, **Full Screen** Mode, Autostart Sidepanel on boot and Autostart TFTP Server on boot.

#### Figure 6. Select options

• Click to select the checkbox for **Yes**, **I want to restart my computer now** and click **Finish**.

Figure 7. Confirm restart

To complete the computer connection to the panel and frame after the computer has rebooted.

- Launch the Sidepanel software application.
- Click to select the box for **E-Box** at the top of the screen. A blue line displays in the bottom of the box to indicate that it has been selected.
- Click to select the box for **Panel** at the top of the screen.
- Click to select the name and IP address for the frame and the panel from the scrolling list at the bottom of the screen.
- Click the **Connect** button to connect the frame to the panel and to the computer Sidepanel software for this session.
- Click **Attach** to make the connection from the frame to the panel and to the computer Sidepanel software persistent so that it will remain after the computer reboots.

### **Installing Panel and Mainframe Software**

• From the **CD Installer Welcome screen** click on the **Install new software** button (third from the top on the left as shown in Figure below):

Figure 8. Software installation

• The Install new software selection screen is displayed. Click on **Network Devices** button on the right to install software over the network.

Figure 9. Network Devices
