

PNET Soft Panel

Software License Information

The PNET Soft Panel software is a PC application and is license controlled. Two types of software license are provided – Trial version and Permanent version.

PNET panels work in conjunction with a SSC (Small-Scale System Controller). Each installation of soft panel software can initiate multiple instances of the panel and each instance needs to connect to a controller in order to operate.

1 Trial Version

The trial version allows 30 days of evaluation period of the software. It may be installed on different PCs but system controller will allow only three simultaneous connections at a time.

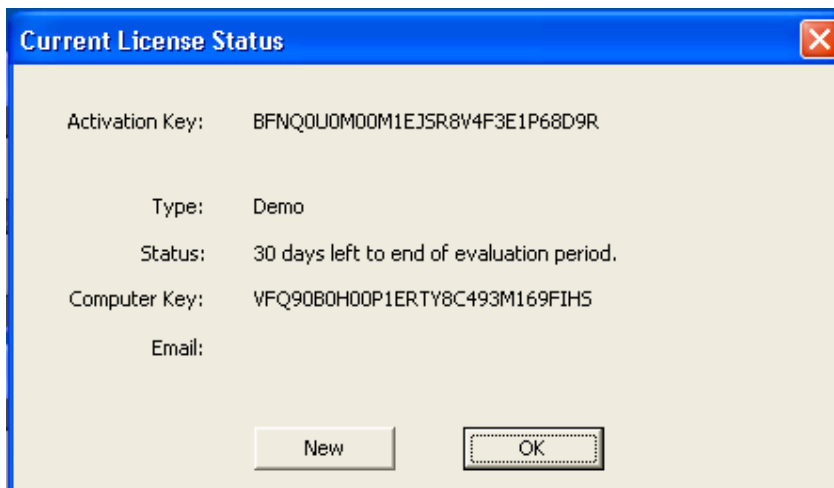

The trial version may be upgraded to the permanent version using appropriate Activation key from PESA, or by installing the permanent version of the software.

2 Permanent Version

The permanent version has no time limit and may be installed on any number of PCs. However the number of simultaneous connections to the SSC depends on that allowed by the SSC, which depends on the license package purchased. The number of supported panels is programmed into the SSC from PESA management and control software Catrux by using license key provided by PESA.

3 License Information

After installation of the PNET Soft Panel software, user can view the current license information by either selecting the License button in the Panel Configure window, or by selecting the License option from the right-click menu of the panel display.

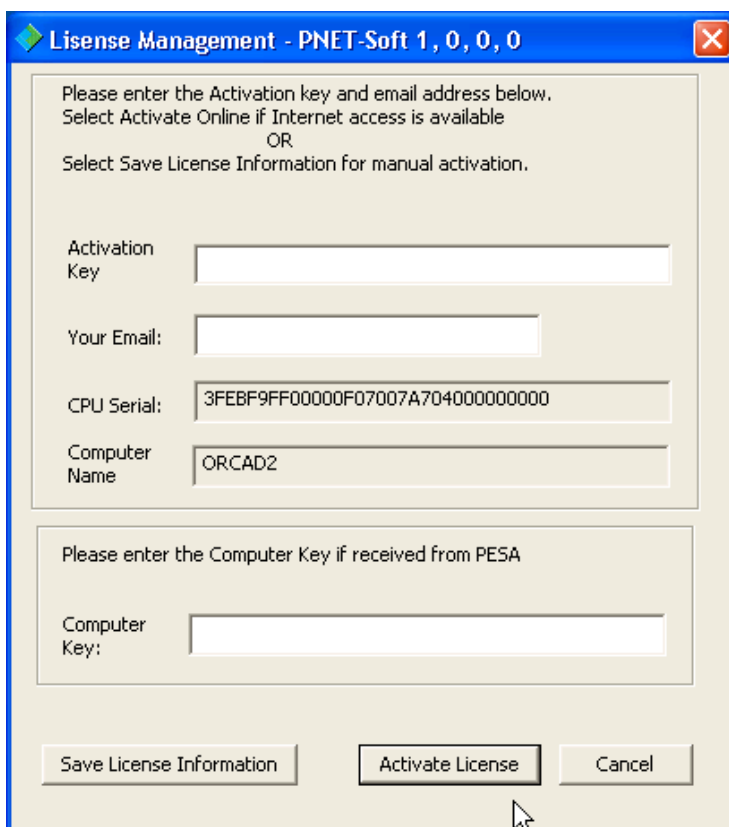

A dialog box titled "Current License Status" with a blue title bar and a close button (X) in the top right corner. The background is a light beige color. It displays the following information:

| | |
|-----------------|---|
| Activation Key: | BFNQ0U0M00M1EJSR8V4F3E1P68D9R |
| Type: | Demo |
| Status: | 30 days left to end of evaluation period. |
| Computer Key: | VFQ90B0H00P1ERTY8C493M169FIHS |
| Email: | |

At the bottom, there are two buttons: "New" and "OK". The "OK" button is highlighted with a dashed border.

Selecting the New button in the in the Current License Status window will allow the user to upgrade the license from trial or demo version to the permanent version. It will display a dialog box as shown below, where the user can enter the key information. Note permanent version of the license may also be installed by installing the permanent version of the software.

A dialog box titled "License Management - PNET-Soft 1, 0, 0, 0" with a blue title bar and a close button (X) in the top right corner. The background is a light beige color. It contains the following text and input fields:

Please enter the Activation key and email address below.
Select Activate Online if Internet access is available
OR
Select Save License Information for manual activation.

| | |
|----------------|--|
| Activation Key | <input type="text"/> |
| Your Email: | <input type="text"/> |
| CPU Serial: | <input type="text" value="3FEBF9FF00000F07007A70400000000"/> |
| Computer Name | <input type="text" value="ORCAD2"/> |

Please enter the Computer Key if received from PESA

| | |
|---------------|----------------------|
| Computer Key: | <input type="text"/> |
|---------------|----------------------|

At the bottom, there are three buttons: "Save License Information", "Activate License", and "Cancel". A mouse cursor is pointing at the "Activate License" button.
