

Camera Remote Control Software

This document describes how to install the HZC-RCP5. For details on further operations, refer to the Help of the Camera Remote Control Software.

Recommended Environment

We recommend installing this software on a PC that satisfies the following conditions.

Operating system	Windows 7 (with Service Pack 1 installed) Professional: 32-/64-bit Ultimate: 32-/64-bit (The software cannot be installed on Windows Vista and Windows XP.)
CPU	1 GHz or faster 32-bit (x86) or 64-bit (x64) processor
Memory	2 GB or more
Hard disk	50 MB or more of free space
Display	Resolution of 1920 × 1080 or higher, 32-bit color or better
Network ports	One, IPv4 for connecting
Other requirements	The following software needs to be installed: .NET Framework 3.5.1 or later

CCU Settings

To use HZC-RCP5, the connected HXCU-D70's software must be version 1.10 or later.
Set PC CONTROL mode on the CCU setting screen.

For details on the settings, refer to the operating instructions of the CCU.

Contact your Sony representative for version upgrades.

Installation Procedure

When installing the software, administrator privileges are needed.

An install key is also required for successful installation.

Contact your Sony representative for the install key.

1 Download the installation package "HZC-RCP5_****.zip" and extract it.

The file name of the installation package differs depending on the software version. ("****" differs depending on the package version.)

Extract the installation package to any folder on the PC.

2 Select the installer.

The file names of the installer are shown in the table below. ("****" differs depending on the installer version.)

Install one of the following four files corresponding to the version of your operating system and the language to be used for installation.

Operating system	Language	File name
32-bit	Japanese	HZC-RCP5-x86_ja-jp-****.msi
32-bit	English	HZC-RCP5-x86_en-us-****.msi
64-bit	Japanese	HZC-RCP5-x64_ja-jp-****.msi
64-bit	English	HZC-RCP5-x64_en-us-****.msi

3 Double-click the installer.

The installer starts.

4 Complete installation, following the instructions on the screen.

The installer may be deleted, as it is not needed once installation has been completed.

Read This First

5 Start the application software from the Start menu.

Click the Start button, then "All Programs," "Sony Production Camera," and "Camera Remote Control Software."

6 Configure network settings based on your system.

For details on the settings, refer to [Help] on the Help menu.
